## **Presentations and Activity Sessions**

Our presentations generally run 60 minutes however the length and content can be tailored to suit your needs. The presentations are designed to complement the Queensland Early Years Learning Framework and can be adapted to the specific needs of the children in each group.

### **Live animals**

Of course you cant have a wildlife presentation without animals so some of our friends will be there to say hello! With a range of critters to meet, the children will have the opportunity to see them up close, just to see how amazing they really are!
